

WHAT LUKE CAN DO— WHAT LUKE DID YESTERDAY

AT A GLANCE:

- DECODABLE READING-PHONICS LESSON
- GRADES 1ST-2ND
- 45-MINUTE LESSON
- TEACHER-LED

SHOWCASES:
DECODABLE
DESIGN, PHONICS
ROUTINES,
SCAFFOLDED
DIFFERENTIATION

MATERIALS:

- TEACHER'S GUIDE (8 PGS PDF)
- STUDENT DECODABLE (10 PGS PDF)
- PPT VERSION OF THE DECODABLE (10 SLIDES)
- CREDITS AND ATTRIBUTIONS (1 PG PDF)

OBJECTIVES:

BY THE END OF THIS LESSON, STUDENTS WILL BE
ABLE TO

- **READ** A BASE WORD AND AN '-ED' WORD.
- **LISTEN** TO THE LAST SOUND IN THE BASE WORD.
- **SAY** WHETHER '-ED' SOUNDS LIKE /T/, /D/ OR /ƏD/.
- **SPELL** A SENTENCE WITH AN '-ED' WORD

What Luke Can Do-What Luke Did Yesterday

Decodable Reading-Phonics Lesson

Teacher's Copy | Inspired by UFLI #64 | Grades 1st-2nd | 45-Minute Lesson | Teacher Led

Overview

This lesson will provide students the opportunity to learn and practice the varied sounds of ‘-ed’ when placed at the end of a word. The scaffold will touch upon students’ current knowledge of many base words in the present tense (no ‘-ed’ ending). The new material will showcase the same base words, in the regular past tense form (‘-ed’ ending). In the decodable and throughout the lesson, all three phonemes of the ‘-ed’ endings /t/, /d/ and /əd/ will be covered.

Materials

Whiteboard and markers; projector or large screen; student notebooks and pencils, or letter tiles; word cards (base word on one side, ‘-ed’ word on the other); a three-column wall chart labeled /t/, /d/ and /əd/; printed decodable (one per student); PPT version of the decodable

Objectives

Teacher's note	Time Allocation
<i>Write the objectives below on the side of the whiteboard. Read aloud each objective before the start of the lesson. Ask students a Concept Checking Question – What's one thing we will be learning today?</i>	<i>2-4 min</i>

By the end of our class today, you will be able to confidently say the following:

- I can read a base word and an ‘-ed’ word.
- I can listen to the last sound in the base word.
- I can say whether ‘-ed’ sounds like /t/, /d/, or /əd/.
- I can spell a sentence with an ‘-ed’ word.

Phonemic-Awareness Warm-Up

Teacher's note	Time Allocation
<i>You are going to read through the following list of words to provide students the opportunity to hear the different '-ed' ending sounds before they see what the words look like. For each word: 1. Say it twice. 2. Ask students to repeat after you twice. 3. Ask them what sound they hear at the end.</i> <i>After list, orally blend 1-2 groups of words with different ending sounds, emphasizing what they hear instead of why they are different. Ask students to repeat after you.</i> Differentiation: Showcase the three sound choices out loud (/t/, /d/ or /əd/) and use 3–4 words. Extension: students think of words that end with '-ed' and say them aloud.	3-5 min

Example for 'jumped': "Listen to the word *jumped*. Listen again, *jumped*. Repeat after me _____. Wonderful, one more time _____. What sound do you hear at the end of 'jumped.' Raise your hands if you know."

You and students say	Students identify the ending
<i>walked</i>	/t/
<i>jumped</i>	/t/
<i>rolled</i>	/d/
<i>rested</i>	/əd/

Example of orally blending words: "Listen to the endings of these three words:"

- jumped
- rolled
- rested

"Repeat after me _____. Can you spot the different sounds at the end?"

Blending and Word Work (3 Parts)

Teacher's note	Total Time Allocation
<i>This section is comprised of three parts. Please review the instructions below for each one. To present the content, you can use a projector, magnetic tile board or large computer screen. What's most important is for the letters and words to be clear and visible. 'Whiteboard' will be used as a placeholder for the rest of the lesson plan.</i>	11-17 min

Part A: Blending Drill

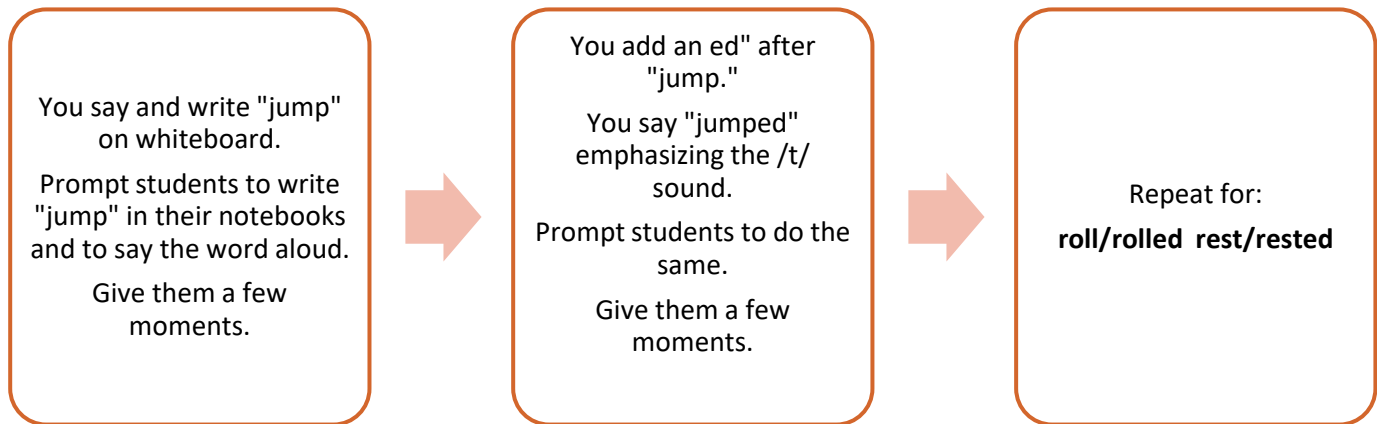

Teacher's note	Time Allocation
<i>Guide the class in decoding three words listed below, emphasizing the ending '-ed' sound. Write them on the whiteboard and point at each letter as you sound them out. State twice and ask students what sound is at the end of each word.</i>	3-5 min

Let's look at these three words. The spelling at the end is 'ed,' but the sounds are different. Listen and watch:

- jumped
- rolled
- rested

Part B: Word Work

Teacher's note	Time Allocation
<i>Next, you will show students the connection between the 'base' verb and the '-ed' ending verb by following the process below. At this stage, please make sure each student has a pencil and notepad or a stack of lettered tiles in front of them for application purposes.</i>	3-5 min

Part C: Sort the Words

Teacher's note	Time Allocation
<i>In this last part of Blending and Word Work, you'll guide the class in applying the '-ed' ending pattern independently.</i> Set-Up: Create a three columned table on a wall, with titles that include each of the three sounds '-ed' can make. Provide each student with a card that has the base word on one side and the '-ed' word on the other. Procedure: For their word, students will be expected to go through the process listed below (example included). Don't hesitate to jump in and/or ask the other students to help if needed. This is an independent activity, but a class effort. Important exception: Rubbed doubles the final consonant. rub + b + ed. Short vowel + one consonant. Double the consonant before adding '-ed'. Show it on the board before dictation Answers: /t/: walk → walked, talk → talked, jump → jumped. /d/: roll → rolled, rub → rubbed. /əd/: rest → rested, plant → planted	5-7 min

1	Show class base word and read it
	•walk •talk
2	Say its last sound, not simply its final letter
	•'k' sound
3	Add '-ed' at the end of the word
	•walked •talked
4	Say the complete word
	•(ask students to read through the word twice, checking for correct pronunciation)
5	Place word under /t/, /d/ or /əd/ on the wall
	•place 'walked' and 'talked' under column /t/

Decodable Reading

Teacher's note	Time Allocation
<i>The purpose of this section is for students to apply what they've learned in context by decoding a short story that connects the base verbs (prior knowledge) and '-ed' ending verbs (new knowledge) with one another. Click on the icons below to access the decodable in different formats:</i> 1. PPT -> Share on a projector or computer screen 2. PDF -> Can be printed out and shared with each student Important note: Review that 'can' shows what Luke is able to do now. The words that end with '-ed' shows what he did yesterday.	8-10 min

1. Quickly review key words that'll be included in the decodable. Ask students to chorally repeat after you.

- walk → walked — '-ed' says /t/
- talk → talked — '-ed' says /t/
- jump → jumped — '-ed' says /t/
- roll → rolled — '-ed' says /d/
- rub → rubbed — '-ed' says /d/

- *rest* → *rested* — ‘-ed’ says /əd/
- *plant* → *planted* — ‘-ed’ says /əd/

2. Share the **PPT version** onto a projector/computer and pass out the **printable version** to each student.

Important note: Right click on the icons below and choose ‘Open in new tab’ or ‘Open in new window.’

~Back up text if links don't work~

Luke can walk.

So, he walked to the park.

Luke can talk.

So, he talked with his pals.

Luke can jump.

So, he jumped in the air.

Luke can roll.

So, he rolled in the grass.

Luke can plant.

So, he planted a seed.

Luke can walk.

So, he walked back home.

Luke can rub.

So, he rubbed his eyes.

Luke can rest.

So, he rested in his bed.

Write out a simple three-symbol key on the board:

- /t/ — tap on your desk once
- /d/ — hum once
- /əd/ — clap twice

You guide the students through the story. For the first time, students will read for accuracy and focus on the 'ed' words. On the second read, pause only at target words and have them identify the ending sound using the three-symbol key.

Dictation

Teacher's note	Time Allocation
<i>For this last section, you will check to that your students can encode the 'ed' ending pattern. Take 3-5 words from the decoder that students seemed to have the most difficulties with and follow the UFLI-inspired routine mapped out below (1 example using 'walked' is included). Depending on time and level of practice needed, repeat the process for each word as you see fit.</i> Scaffold: give a sentence frame ("So, he _____ to the park."). Extension: students write their own ("I can _____, so I _____") Answers: "So, he walked to the park." (/t/, 6 words). "So, he talked with his pals." (/t/). "So, he rolled in the grass." (/d/). "So, he rested in his bed." (/əd/)	6-8 min

- 1 Say the whole sentence from the decoder**
So, he walked to the park.
- 2 Student repeat it**
So, he walked to the park (chorally, twice)
- 3 Count the words in the sentence together**
1, 2, 3, 4, 5, 6
- 4 Say the sentence again slowly**
So, he walked to the park.
- 5 Students write it in their notebooks**
- 6 Reread the sentence together**
- 7 Student check capitalization, spacing punctuation and the 'ed' spelling**

Checklist and Simple Formative Assessment (Optional)

Assessment: observation checklist	Check each student for the following competencies: ☐ reads base word and ‘-ed’ word ☐ names the ending sound ☐ sorts correctly ☐ spells the ‘-ed’ ending ☐ uses capitalization and punctuation in dictation.
Assessment: exit ticket	1. Sort three words (for example, jumped, rolled, rested) under /t/, /d/ or /əd/. 2. Then spell one sentence from dictation.

What Luke Can Do- What Luke Did Yesterday

Luke can walk.
So, he walk**ed** to the park.

Luke can talk.
So, he talk**ed** with his pals.

Luke can jump.
So, he jump**ed** in the air.

Luke can roll.
So, he rolled in the grass.

Luke can plant.
So, he planted a seed.

Luke can walk.
So, he walk**ed** home.

Luke can rub.
So, he rubb**ed** his eyes.

Luke can rest.
So, he rested in his bed.

The End
